# Contents

## Introduction..... 1

### Section 1

#### Algorithm Design and Programming..... 7

Module 1.1 Thinking for computers .....	8
Module 1.2 Introduction to graphical programming .....	25
Module 1.3 Input, processing, output .....	43
Module 1.4 Decision making .....	59
Module 1.5 Interaction between sprites.....	75
Module 1.6 Lists .....	83
Module 1.7 Prevent and find errors .....	90
Module 1.8 Projects.....	95

### Section 2

#### Systems Technologies..... 105

Module 2.1 Basic concepts of computing .....	106
Module 2.2 Basic concepts of hardware.....	118
Module 2.3 Basic concepts of system software.....	136
Module 2.4 Computer management .....	143
Module 2.5 Improve your browser .....	154

### Section 3

#### Communication and Internet Technologies..... 159

Module 3.1 Networks.....	160
Module 3.2 Electronic communication .....	172
Module 3.3 Internet and WWW .....	182
Module 3.4 Web page technology .....	196

## **Section 4**

### **Data and Information Management.....203**

Module 4.1 Data as the computer sees it.....204

Module 4.2 File management .....213

## **Section 5**

### **Social Implications.....225**

Module 5.1 Social, ethical and legal issues surrounding ICTs .....226

Module 5.2 Green, health and global e-communication issues.....231

Module 5.3 Safe Internet and e-mail use.....236

## **Appendix**

### **Connectors on a Computer ..... 247**

# Table of Contents

<b>Introduction .....</b>	<b>1</b>
<b>Section 1</b>	
<b>Algorithm Design and Programming.....</b>	<b>7</b>
<b>Module 1.1 Thinking for computers.....</b>	<b>8</b>
Computers and ‘thinking’ .....	8
Create a solution for a problem .....	9
Algorithms for simple mathematical problems .....	15
Algorithms with decisions .....	19
Algorithms with repetition .....	21
<b>Module 1.2 Introduction to graphical programming .....</b>	<b>25</b>
Gather your resources.....	25
Get to know the Scratch environment .....	26
Teach a sprite to perform basic tasks .....	29
Teach a sprite to repeat actions.....	32
Create animation .....	35
<b>Module 1.3 Input, processing, output.....</b>	<b>43</b>
Introduction.....	43
Teach a sprite to ‘remember’ by using variables .....	43
Teach a sprite to do calculations with numbers .....	47
Teach a sprite to handle strings.....	54
<b>Module 1.4 Decision making .....</b>	<b>59</b>
Introduction.....	59
Decision-making in Scratch .....	59
Decide when to terminate the loop .....	71
Decide when to enter the loop .....	73
<b>Module 1.5 Interaction between sprites .....</b>	<b>75</b>
Broadcasting and receiving messages.....	75
Two sprites communicate by sharing data .....	79
<b>Module 1.6 Lists.....</b>	<b>83</b>
Representation of a list.....	83
Create a new list.....	83
Program blocks for lists .....	84
Store items in a list .....	84
<b>Module 1.7 Prevent and find errors .....</b>	<b>90</b>
Data validation.....	90
Debugging your program.....	92
<b>Module 1.8 Projects.....</b>	<b>95</b>
Special effects .....	95
The importance of planning .....	95
The final touches .....	96
Follow the design of a coin toss game .....	97
Flags and interactive elements.....	102

## Section 2

### Systems Technologies..... 105

<b>Module 2.1 Basic concepts of computing.....</b>	<b>106</b>
What is a computer? .....	106
An expanded model of a computer.....	107
The role of software.....	109
Types of computers .....	112
ICT systems .....	114
<b>Module 2.2 Basic concepts of hardware .....</b>	<b>118</b>
Inside the case of a computer .....	118
Connecting to the computer .....	120
Peripherals .....	122
Smartphones versus computers.....	133
<b>Module 2.3 Basic concepts of system software .....</b>	<b>136</b>
Introduction.....	136
Operating system .....	136
Utility programs.....	139
Device drivers.....	139
<b>Module 2.4 Computer management .....</b>	<b>143</b>
Introduction.....	143
Initial maintenance .....	143
Ongoing maintenance .....	146
Adding and removing software and hardware .....	148
Other housekeeping tasks.....	149
<b>Module 2.5 Improve your browser .....</b>	<b>154</b>
Modular software .....	154
Browser plug-ins.....	154

## Section 3

### Communication and Internet Technologies..... 159

<b>Module 3.1 Networks.....</b>	<b>160</b>
What is a network? .....	160
Reasons for having a network .....	160
Disadvantages of having a network .....	162
Components of a network.....	162
Types of networks.....	166
Client-server vs. peer-to-peer LAN.....	168
Access control when logging into a network.....	170
<b>Module 3.2 Electronic communication .....</b>	<b>172</b>
Applications to facilitate e-communication.....	172
E-mail .....	175
Practical use of e-mail .....	177
<b>Module 3.3 Internet and WWW .....</b>	<b>182</b>
What is the Internet? .....	182
What is needed to connect to the Internet?.....	182
The World Wide Web .....	184

<b>Module 3.4 Web page technology.....</b>	<b>196</b>
Introduction.....	196
What is a web page?.....	196
HTML.....	197
Basic formatting tags.....	198
Characteristics of a well designed web page.....	199

## Section 4

### **Data and Information Management.....203**

<b>Module 4.1 Data as the computer sees it.....</b>	<b>204</b>
Number systems.....	204
Data as the computer sees it.....	204
Data storage.....	208
<b>Module 4.2 File management .....</b>	<b>213</b>
Introduction.....	213
The file manager .....	213
Files – the basic unit of storage.....	216
The need to organise.....	220

## Section 5

### **Social Implications.....225**

<b>Module 5.1 Social, ethical and legal issues surrounding .....</b>	<b>226</b>
ICTs .....	226
Introduction.....	226
EULAs, copyright and piracy .....	226
<b>Module 5.2 Green, health and global e-communication issues.....</b>	<b>231</b>
Ergonomics and health issues.....	231
The need for green computing .....	232
The impact of global e–communication .....	234
<b>Module 5.3 Safe Internet and e-mail use .....</b>	<b>236</b>
Introduction.....	236
Viruses.....	236
Computer worms .....	238
Trojans.....	238
Spyware.....	238
Adware .....	239
Spam .....	239
Hoaxes and scams .....	240
Phishing.....	241
Pharming .....	241
E-mail spoofing.....	241
Guidelines using the Internet and e-mail with courtesy and safety .....	242

## Appendix

### **Connectors on a computer.....247**

This book is dedicated to the memory of our friend and colleague  
Annette Bezuidenhout who lost her brave fight against cancer in 2009.  
She inspired many to believe that IT is great!
